WEEKLY NEWS LETTER.

By W. F. Bond, Department of Education, Jackson, Mississippi

The Tate County Board of SSupervisors has done the splendid thing in making it possible for the county superintendent of education of that county to get a leave of absence so that she might attend Penbody College this summer.

Section 29 of the School Code, as passed by the 1924 Legislature, gives the Boards of Supervisors the right to allow the county superintendent to appoint a deputy, who shall at-tend to the duties of the office while the county superintendent is away

at school. This is the first time a board of supervisors has taken advantage of this new law. It is to be hoped that next summer there will be many boards in the State that will do like-wise. In fact, it would be a great thing for the children of Mississippi if one-fourth of our county superintendents would spend from six weeks to three months in school themselves every summer.

## The Hero of the War

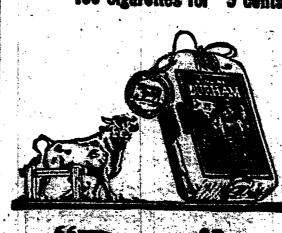

Ever since the War was over Nations have been arguing over "Who won it." And if the discussion is not stopped we may have to have another War just to decide who won the last one. If we ever do go into another War, have it understood there is to be a Referee, and at the finish he is to announce "Who Won and how much." In the last War we paid Transportation both ways and rental on the grounds, and now all England and France say is, "We didn't get there soon enough." D. H. Holmes' Champs Defeat Cue's Lime Colas by Score of 8 to 6.

The Holmes outfit from the Crescent City, the same bunch who won the yard-stick championship last season, came from the rear last Sunday out at the Rock-a-Chaw Park and trimmed Dick Cue's Lime-Colas to the tune of eight to six in an interesting game before a fair crowd of dyed-in-the-wool fans.

The game took a start as though would be a pitcher's battle, and a close one at that, for they started out with each side making a run in banks for firing a volley of blank then went in and with four errors and two bingles tallied a quintette of runs. It then bore an aspect of a petting party with the Soda-Pops doing the petting. The local bugs then dished out a bit of rooting for their team—they were sitting pretty and the world was smiling ... but, the dry goods folks got onto Wally Bontemps' shoots, when the fifth spasm registered, and spurted up with three runs, putting the readings as 6-4. The visitors duplicated things, with the assistance of an error, in the next inning, and the foresaid readings were scandalous at 7-6. Dick had listened to the various

and sundry "coaches" who park in the "grand," and kept Wally in just a lil bit too long. Wally thought he could weather the storm, too. That spelled the beginning of the sad end, the cream was frozen and packed in the dry goods ice box. "Hippo" Philaps, who relieved Wally after the sixth, allowed but two hits and whiffed three yard-stick the locals couldn't negotiate nor an

nex, therefore the punishment. Not satisfied with a run to the good, these merchants demanded their pound of flesh and got it by another run in the eighth, making one hit, taking advantage of an error and a passed ball. Try as hard as they would, the effervescing Cokes couldn't connect, so they had to take the dose as 'twas dished out. The attack, counter attack and

the final annihilation was, as per the following manner, accomplished: First spasm: L. Rousseau, the Sheik of Organdy, dropped a peach of a Texas Leaguer just beyant short and copped two bags on the hit as the ball roll d away from Monty towards left field. C. Rousseau sent a fly out to Jimmy Collier that met a basket. Syd Ramond (who, by the by, is an ex-Mullet hypnotizer) forced Rous at third; Cohn, a Cotton States player, singled to right; Blume slammed out a safety to left that registered two sacks, scoring Raymond. Jones got the breeze and stopped the score.

Same spasm: Pete Monteleone ambled up and caught the second ball on the button, slamming the pill out to deep left for a trio of bags; Jim Collier whiffed; Hippo tried to hand the horse hide a K. O. and the Umps wafed him back to the crib. Things looked bad, there was Monty hanging onto third as close as the interest on a mortgage note, and it looked like he'd die, but Aint-e-Gran Blaize slammed out a lawn-mower through short and Pete crossed the rubber with a sigh of relief. Wally

popped up a fly and was out. Holmes could do nothing in the second: Saunders struck out, Moreci lined to Wally and was out, then Warner met the same fate when he the country's marts. hit to short and was thrown out.

The Board of Supervisors will meet in regular session Monday. On that day bids for paving certain streets of the city will be opened, and already it is evident there will be many bids and bidders of divers type of paving. County Engineer John Dearmas is busy these days with the big task and will be busier next week grading the different bids, but in all fully equal to the big task. Hard-surfacing of the Bay St. Louis streets cannot come too early, and we hope the bid will be awanded not necessarily to the chequest but to the best tasks.

the process, Mr. H. P. Willis, who, at the time, was chief engineer of the highway department of the State of New York. An asphalt pavement laid by the Willite process, is known by trade name of "WILLITE."

This process requires the materials necessary to make the highest and best grade of asphalt, and to these materials, during the mixing and when at a high degree of temperature, is added a certain exact percentage of copper sulphate.

Without going into the scientific details of just how and why such superior results are obtained by the use of copper, the easily apparent results are the tempering, toughening and hardening of the pavement.
